UNIVERSITY OF TEXAS

HEALTH SCIENCE CENTER AT SAN ANTONIO

7703 FLOYD CURL DR

Type: ROUTINE INSPECTION

Date: Nov-30-2010

SAN ANTONIO, TX 78229

2.31 (d) (1) (ii)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

(ii) The principal investigator has considered alternatives to procedures that may cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources, e. g., the Animal Welfare Information Center, used to determine that alternatives were not available;

One protocol reviewed does not include a search for alternatives to procedures that may cause more than momentary or slight pain or distress to the animals. Protocols which involve procedures which may cause more than momentary or slight pain or distress must include a written narrative description of the methods and sources used to determine that alternatives were not available. The principal investigator for this protocol must consider alternatives and provide a written narrative description of the search for alternatives.

Correct By :12/14/10

This was a focused inspection conducted with IACP office employees and Dr. Pannill -USDA

The exit interview was conducted with LAR Director ,Associate Director IACP and Dr. Pannill -USDA
